Venous **I**nsufficiency **P**ersonal & **P**ractical (VIPPP) courses are organized along the year worldwide to provide both a theoretical and practical educational top experience to the limited number of attendees. In the occasion of the v-WIN annual meeting, the experienced

team of world renowned KOLs and tutors performs procedures in favor of patients affected by severe chronic venous and lymphatic disease, while sharing knowledge with many attendees from all around the world, all together involved in a both educational and humanitarian mission, as per the vision of v-HELP project: not «just» providing some procedures, rather teaching a procedural appropriate method so that every patient can enjoy proper care. On Sept 3, 2025, the attendees will enjoy also the special chance of treating patients in the unique San Giovanni Hospital, built on the roman villa of the emperor Marcus Aurelius mother, right in front of the Pope Apartments.

for appropriate vein-lymphatic care

[\[info@vwinfoundation.com\]](mailto:info@vwinfoundation.com)

Sala Zuccari – Palazzo Giustiniani

EVENT RATIONALE

From September 3 to 6, 2025, Rome will host the most renowned key opinion leaders in vein-lymphatic disorders management, a topic affecting more than half of the adult population.

September 4 will represent the institutional day, focusing on appropriate and sustainable patient-care, involving indeed also patients and a top clinical governance ensemble from different countries, together with institutional representatives of the Justice, Gender Medicine and Telemedicine sectors.

The keynote speaker, prof. Gordon Guyatt, founder of the GRADE system, first person to publish about “evidence-based”, will highlight how to move forward from the same evidence to the decision-making at best.

An example of international collaboration for “*globalizing the evidence, while nationalizing the decision-making*” will be offered by the presentation and discussion of the VALID project: acronym of **Vein And Lymphatic International Document**.

The scientific day will be followed by a public health awareness moment in the unique context of Piazza di Spagna, where institutional personalities, public, world renown health experts and fashion representatives will walk down the famous Spanish Steps to symbolize that indeed “***Leg health goes with Fashion***”.
